PROFILE

Passionate Junior Software Developer with strong foundation in C++, C#, Object-Oriented Programming (OOP), Data Structures, Algorithms, and Databases. Hands-on experience in **.NET development**, including **ASP.NET Core**, **Entity Framework Core**, and **LINQ**, gained through academic and personal projects. Skilled in writing clean, maintainable, and efficient code, with good problem-solving abilities and understanding of backend development concepts. Fast learner, adaptable to new technologies, and eager to contribute to real-world software projects while continuously improving technical skills.

EDUCATION

Zagazig University

09/2023 – Present

Currently studying at the Faculty of Science, Department of Computer Science and Physics, majoring in Computer Science.

EXPERIENCE

Advanced Programming

06/2024 – Present

Learning the .NET Framework using C# and SQL Server to strengthen back-end development skills and practical experience

Programing fundamentals, *Programming Advices Institution*

09/2023 – 06/2024

Learn the fundamentals of programming while solving numerous problems and working on projects using C++, OOP, and Data Structures.

CERTIFICATES

Programming Advices Institution

Learn the fundamentals of programming while solving numerous problems and working on projects using C++, OOP, and Data Structures

TECHNICAL SKILLS

Programming Languages: C++, C#, SQL, HTML, CSS

Core Concepts: OOP, Data Structures, Algorithms

Frameworks & Technologies: .NET, ASP.NET Core, Entity Framework Core, LINQ

Tools & Platforms: Visual Studio, SQL Server, Git, GitHub

Soft Skills: Teamwork, Problem-Solving, Fast Learning, Communication Skills

LANGUAGES

Arabic — Native/Bilingual

English — Proficient
